

FOLDING MESH CONTAINER 800X600 H680

NEW!

The possibility of stacking the containers allows to limit the used storage space.

This pallet container is a full value container, making it possible to store and transport loose goods, without using euro pallets.

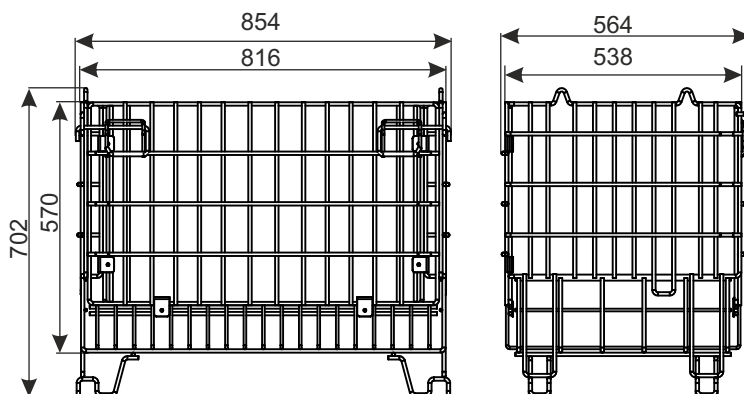

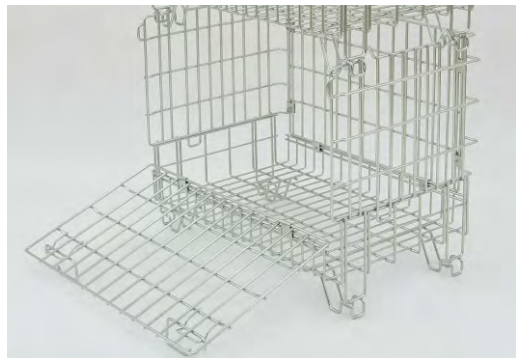

Standard finish: zinc plated + lacquer.

Technical data: The pallet container is made of steel wires (spot welded mesh), on front side it has a half-opened frame.

Loading capacity (with equable spreading of the goods):

- 1 pallet container: 400 kg,
- 2 pallet containers: 400 kg+300 kg,
- 3 pallet containers: 300 kg+300 kg+300 kg,
- 4 pallet containers: 200 kg+200 kg+200 kg+200 kg.

A half-open frame on the front wall allows for easy access to the goods stored inside the container.

Compact dimensions after folding.
